# ACTIVITY SHOWCASE

## HERITAGE SPEAKS

### Description of the Activity

This activity offers an engaging, interactive path to fluency while honoring cultural connections. Learners begin by reading an authentic cultural document and listening to an audio model to build comprehension.

They answer questions ranging from factual recall to higher-order analysis, practice speaking line by line with real-time speech recognition feedback and record their full reading for self-reflection and instructor review. Learners compare their progress to the model at every step, fostering accuracy, confidence, and a deeper connection to their heritage language comprehension.
